INTERNSHIPS

JUL 2019 | JAN 2020 • Full Stack Developer

Intern at Adosphere

I am a lead Web Developer on a project called "BRIEFLY INDIA" and it will provide the end-user a fact check of a particular article on which they can trust. I have also developed a complaint submission tool for the command and control center for schools under **Facebook** Education.

NOV 2018 | APR 2019 • Front-End Developer

Intern at Carloman Systems

Working on a company called Carloman Systems as Front-End Developer. I made the official website of this company in HTML and later, We convert this website into Wordpress.

OCT 2017 | NOV 2018 • Front-End Developer

Intern at Startup Stудity

The Startup is all about providing a platform through which students can have access to material of modules and assignments using the website. I was responsible for helping in the Front-End part of the website.

PROJECT DETAILS

• Analyze-Lab (PBL PORTAL)

Analyze-Lab is common platform for all PBL (Problem Based Learning) projects of SOGI (Silveroak Group of Institute). This web application is created for faculties and students to manage data of PBL. In this portal students can upload their documents and faculties can review them.

Technology : HTML, CSS, SCSS, Bootstrap 4, JavaScript, jQuery, MySQL, OOPHP, AJAX
Dependencies & Design Tool : Font-Awesome, Dropzone, GulpJS, Adobe Illustrator
Website : <https://pblportal.com>

• Image & PDF Compressor API

This compressor can compress all types of images and PDFs without showing a single advertisement and you can use this API for free. Supported Extensions are jpeg, jpg, png, gif, pdf.

Technology : PUG, SCSS, Bootstrap 4, JavaScript, NodeJS, ExpressJS
Dependencies & Bundler: Font-Awesome, Imagemin, GulpJS, ParcelJS
Website : <https://compressor.nishargshah.com>

PROJECT DETAILS

- **Breifly India**

Briefly India provides the end-user a fact check of a particular article on which they can trust. It raise awareness of the common people about the increasing misinformation & provide them with the correct information.

Technology : HTML, CSS, SCSS, Bootstrap 4, JavaScript, jQuery, MySQL, OOPHP, AJAX

Dependencies & Design Tool : GulpJS, Adobe Illustrator

Website : <https://breiflyindia.nishargshah.com>

- **Workplace**

I have developed a complaint submission tool for the command and control centre for schools under **Facebook** education. It submits information about a complaint received over the phone and it searches teachers based on school code or userId.

Technology : HTML, CSS, SCSS, Bootstrap 4, JavaScript, jQuery, MySQL, OOPHP, AJAX

Website : <https://workplace.isaaceducation.in>

- **Other Personal Front-End Projects**

In other personal front-end projects, I made six projects in which two projects are for the companies, two projects get through freelancing and two projects are PSD to HTML projects for practice.

Projects Names : Carloman Systems, Community, HEAT, BODY, FOOD, TRAVEL

Technology : HTML, CSS, SCSS, Bootstrap 4, JavaScript, jQuery

Dependencies : Font-Awesome, GulpJS

ACHIEVEMENTS

- I earned a 5000+ Reputation in **StackOverflow.com** and I came in the top 100 contributors of **StackOverflow.com** in the month of April.

APR 2020

- I got 2nd number in Web-Sketchers event based on making webpage in notepad in my college and I had contributed as co-ordinator in an event of a college called Code-Crash.

SEP 2019

- I Made PBL (Problem Based Learning) portal for college called Analyze-Lab and it is selected as TOP 5 projects of PBL in IT.

APR 2019

- Hosted workshop as lead trainer in college, the workshop was about to learn HTML, Cascading Style Sheets (CSS), JavaScript languages from scratch. This workshop was guided under IT HOD.

DEC 2018
